

April 3, 2008

To Whom it May Concern:

Hunt Construction Group and myself personally have worked with Deborah Brandt and Brandt Design Group on four hospital projects in the past five years.

- Carson Tahoe Regional Medical Center – Carson City, Nevada
- Carson Tahoe Surgical Center – Carson City, Nevada
- Carson Tahoe Cancer Center – Carson City, Nevada
- Mercy Gilbert Medical Center – Gilbert, Arizona

In all cases, Brandt Design Group was very team oriented and willing to work through any value engineering or constructability issues through out the project. Site walk throughs and punchlists were done in a timely and professional manner on all of the above projects. Through all phases of the construction process, the level of effort and the attention to detail that was provided by Brandt Design Group helped the entire Project Team accomplish the projects in a timely and cost effective manner. We look forward to working with Brandt Design Group on future projects.

If you have any questions or require additional information, please feel free to contact me at (602) 757-1585

Sincerely,

A handwritten signature in blue ink that reads 'Tom Martin'.
