**Re: Brandt Design Group, Inc.**

To whom it may concern,

This letter is written in recommendation for Deborah Brandt and Brandt Design Group, Inc.

It is with great pleasure that I recommend Deborah Brandt and Brandt Design Group for interior design services you may need. I have worked with Deborah for many years on our new 235,000 sq. ft. hospital. Twelve years ago when the project started, Brandt Design Group was hired to provide full interior design services. Deborah was directly involved in all aspects of the project and skillfully balanced her client's expectations and needs with the practical issues of budget, timelines and coordination with all consultants. Her design work is fabulous, she manages budget issues practically and professionally and above all communicates very well with and advocates for her client.

We designed the interior of the hospital to reflect a healing environment for our patients and their families. The color pallet is warm and comforting. The furniture is durable, beautiful and very well coordinated with fabrics, paints, various finishes and the spectacular artwork.

I highly recommend her services for your consideration.

Sincerely,

Kerin A. Mase, RN, MBA  
Chief Operating Officer/Chief Nurse Executive
